

The Department for Education has set ambitious targets for schools and colleges to reduce their carbon emissions and become more sustainable.

A facilities management supervisor apprenticeship is a great way to gain the skills and knowledge your school, college or Trust needs to meet these challenges and also shows your investment in non-teaching staff development.

Key Content for Education Settings

- Sustainable Management & Maintenance of School Buildings
- Cost Reduction & Efficient Resource Usage
- Budget Management & Internal Finance
- Legislation and Compliance Systems
- Corporate Social Responsibility
- Team Leading, Mentoring & Coaching Skills

Implementing Sustainable Practices

Axia Facilities Management Supervisor apprentices have developed new initiatives to reduce energy usage and cut waste in the workplace. This has contributed to their employer's carbon reduction and Net Zero targets.

In addition to the environmental benefits, they can also have a positive impact on your school's bottom line by reducing energy consumption and waste,

Flexible and Tailored Delivery

The apprenticeship course is designed to be **flexible**, allowing apprentices to study alongside their new or existing roles.

We offer **ongoing support and guidance** throughout the apprenticeship journey for the apprentice and their employer ensuring a smooth and successful learning experience.

A qualified Facilities Management Supervisor is in an ideal position to deliver the operational objectives required to **support your Sustainability Lead**.
